NHS Test and Trace: COVID-19 testing for Students/Pupils

Dear Parent /Carer,

You may have heard that testing for those without coronavirus symptoms is beginning across the country using new, quicker COVID-19 tests known as 'lateral flow devices. This letter is to help give you more information about the testing programme in our school.

Up to one third of people who have coronavirus are asymptomatic. By testing we will help to reduce the spread in school and college settings through asymptomatic transmission. I am therefore strongly encouraging those returning to school to be tested. Where possible, the Key Worker/Vulnerable bubbles currently in school, will be tested ahead of the wider return of students.

Plan for testing

We will be looking to test all staff and secondary school pupils as they return to school.

How the tests work

Those taking the test will be supervised by trained staff and volunteers. The lateral flow tests are quick and easy to undertake, using a swab of the nose and throat. Results (which take around half an hour from testing) will be shared directly with the individual participant. The school will inform the pupil of a positive test result. Where participants are under 16, parents or legal guardians will also be informed. The pupil will also receive a text/email notification of a positive or negative result from the online NHS system. Tests are free of charge.

What if my child tests positive?

If a pupil tests positive on a lateral flow device, they will need to self-isolate for 10 days and follow the guidance from NHS Test and Trace.

What happens if the test is negative?

While a small number of pupils may need to repeat the test if the first test was invalid or void for some reason, pupils who test negative will be able to stay in school and resume their activities as normal. Pupils will be informed of negative test results via text/email. Where participants are under 16, parents or legal guardians will also be informed.

What if staff or students have been in close contact with someone in school who tests positive?

The staff member or student will be notified that they are a close contact by the school and will need to self-isolate for 10 days in line with Government guidance.

What if my child develops symptoms?

This testing programme at school is for people with **no** symptoms. If your child develops symptoms at any time (including a high temperature; a new, continuous cough; or a loss or change to their sense of smell or taste) they must immediately self-isolate and book a test by calling 119 or visiting <https://www.gov.uk/get-coronavirus-test>.

What happens next?

Parents/carers should complete the consent form, **as soon as possible**, either in paper form or through the link which will be shared to emails via Edulink. Please complete the consent form even if consent is not given, this will ensure the school does not contact parents/carers unnecessarily.

Paper consent forms should be posted to: Headteacher, (COVID-19 Testing), Beverley High School, Norwood, Beverley, East Riding of Yorkshire, HU17 9EX

Further details in regards to appointments and the testing programme will be sent to parents/carers at a later date.

We will support our staff and pupils throughout, but please contact us if you have any questions. You can contact the office by emailing office@beverleyhigh.net

Yours faithfully

Sharon Japp
Headteacher
